

## A Proposed Landfill in Cumberland County

### The DEQ Application and Review Process

The Cumberland County Development Company, a subsidiary of Allied Waste of North America, has proposed constructing a landfill in Cumberland County.

The first major step in the development of a new landfill is for the local government to approve or deny its construction. The Cumberland County Board of Supervisors voted to approve rezoning the land for the landfill on Oct. 17, 2006.

Once a locality has approved a landfill, it is DEQ's responsibility to process the various permit applications according to the applicable laws, regulations and procedures. Citizens may review those requirements and the applications submitted, and discuss any concerns with DEQ. DEQ does not

have the authority to deny a landfill permit solely on the basis of citizens not wanting the landfill in their community.

The Cumberland County Development Company has submitted an application for a wetlands (Virginia Water Protection) permit, a notice of intent to construct a landfill and the first and last parts of the solid waste permit application to DEQ. The county government has submitted an amended Solid Waste Management Plan that includes the proposed landfill.

DEQ is reviewing this information. Contacts and public participation opportunities for the different components are listed below:

#### Solid Waste Management Plan

##### Contacts

Dan Gwinner (804-698-4218 or [dsgwinner@deq.virginia.gov](mailto:dsgwinner@deq.virginia.gov))  
Sanjay Thirunagari (804-698-4193 or [skthirunagari@deq.virginia.gov](mailto:skthirunagari@deq.virginia.gov))

##### Public participation

The amended plan to include the proposed landfill contained the following information on public participation: A public notice appeared on Dec. 15, 2006, in the *Farmville Herald*. A public hearing was held on Jan. 3, 2007, at the Cumberland County Courthouse.

##### Status

DEQ received an amended plan to include the proposed landfill on March 8, 2007, and the most recent addition of information on June 29, 2007. DEQ approved the amendment to the plan on Sept. 28, 2007.

#### Wetlands Permit

##### Contacts

Mark Bushing (434-582-6240 or [mfbushing@deq.virginia.gov](mailto:mfbushing@deq.virginia.gov))

##### Public participation

A notice for public comment on the permit was published in the *Cumberland Bulletin* and the *Farmville Herald* on July 26, 2007, and July 27, 2007, respectively. The 30-day public comment period ended on Aug. 27, 2007.

##### Status

The application was received on May 14, 2007, and deemed complete on June 1, 2007.

#### Solid Waste Permit -- Notice of Intent

##### Contacts

Dr. M. A. Karim (804-698-4196 or [makarim@deq.virginia.gov](mailto:makarim@deq.virginia.gov))

#### Public participation

The applicant published the public notice in the *Cumberland Bulletin* and *Farmville Herald* on Nov. 10, 2006, and Nov. 17, 2006, respectively. The public meeting was held on Nov. 28, 2006. Based on DEQ's comment, another public meeting was held on March 6, 2007. The public notice for this meeting appeared on Feb. 14, 2007, and Feb. 21, 2007, in the *Farmville Herald* and Feb. 15, 2007, and Feb. 22, 2007, in the *Cumberland Bulletin*.

##### Status

The applicant submitted the notice letter in December 2006. DEQ determined in April 2007 that all the necessary information had been received. DEQ is performing a technical review of the information.

#### Solid Waste Permit - Part A

##### Contacts

Dr. M. A. Karim (804-698-4196 or [makarim@deq.virginia.gov](mailto:makarim@deq.virginia.gov))

##### Public participation

No additional public participation is required for this stage.

##### Status

The applicant submitted this application in December 2006. DEQ determined in April 2007 that the application was administratively complete. DEQ is evaluating the technical aspects of the application.

#### Solid Waste Permit - Part B

##### Contacts

Matthew Biesterveld (434-582-6206 or [mdbiesterveld@deq.virginia.gov](mailto:mdbiesterveld@deq.virginia.gov))

##### Public participation

DEQ will publish a public notice for a 45-day public comment period, which includes a public hearing, in a newspaper of general circulation in the locality after developing the draft permit.

##### Status

DEQ received the application on Aug. 24, 2007.

## Highlights of Proposed Cumberland County Development Company Landfill

<b>Applicant</b>	Cumberland County Development Company, LLC, a subsidiary of Allied Waste of North America, Inc. (also known as BFI)
<b>Location</b>	In Cumberland County, Virginia, about 6 miles east of Cumberland Courthouse along U.S. Route 60 (Anderson Highway) and about 1.2 miles south of U.S. Route 60 on the industrial park access road
<b>Property / facility boundary</b>	About 557 acres
<b>Waste disposal boundary</b>	About 305 acres (including leachate and gas management areas)
<b>Notice of Intent and Part A application</b>	Received: December 28, 2006; A monthly review status is available on the DEQ website at <a href="http://www.deq.virginia.gov/waste/sitingapprovals.html">www.deq.virginia.gov/waste/sitingapprovals.html</a>
<b>Local land use rezoning and siting certification</b>	Local land use rezoning and siting certification from Cumberland County was included with the application. The Cumberland Board of Supervisors voted to approve the land rezoning for the landfill on Oct. 17, 2006. More information is on the county's website at <a href="http://www.cumberlandcounty.virginia.gov">www.cumberlandcounty.virginia.gov</a> .
<b>Traffic routes and volumes</b>	From Interstate 95 and/or 64 to U.S. Routes 60 and 45. Host Agreement, Page 12, Section (d) says, "The Company shall require its Company Controlled Waste Stream Providers going to the Landfill to limit the use of that portion of Route 60 passing through the County Courthouse between the hours 7 a.m. and 8 a.m., and again between 3 p.m. and 4 p.m., Monday through Friday on days when county schools are in session, to a standard of no more than 4 trucks per hour."
<b>Daily disposal limits</b>	The daily average is 5,000 tons per day, and the daily maximum is 7,000 tons per day. A Virginia Department of Transportation Approval letter (dated Dec. 14, 2006) requires a left turn and a right turn lane on Route 60 at the entrance to the landfill for handling the 7,000 tons per day.
<b>Demonstration of need</b>	The applicant has demonstrated the need based on the requirements indicated in § 9 VAC 20-80-500.B.9.b that the remaining capacity in the facility is less than 10 years and the available permitted disposal capacity in the state is less than 20 years.
<b>Flooding and geology</b>	The location is not subject to base flooding or located in a geologically unstable area.
<b>Distance to nearest airport runway</b>	More than 5 miles
<b>Distance to regularly flowing surface water body or river</b>	About 450 feet, which is greater than the 100 feet required by regulations
<b>Distance to well, springs or other ground water</b>	More than 500 feet. Regulations require 500 feet.
<b>Distance to residence, schools, hospital, nursing home, or recreational area</b>	About 800 feet, which is greater than the 200 feet required by regulations
<b>Public water supply intake</b>	There is no public water supply intake or reservoir located within three miles of the facility boundary.
<b>Landfill impact statement</b>	The potential impact of the proposed landfill on parks, recreational areas, wildlife management areas, critical habitat areas of endangered species, public water supplies, marine resources, wetlands, historic sites, fish and wildlife, water quality, and tourism has been assessed and addressed.
<b>Notification to the adjacent property owners / occupants</b>	Notification of the proposed landfill has been sent to the adjacent property owners and occupants by the applicant.
